Milling & Baking News

Weekly Journal for Breadstuffs Managers

1989 MILLING DIRECTORY / BUYER'S GUIDE

This 1989 Milling Directory/Buyer's Guide comprises two sections. The first is a continuation of the Directory of Milling which had its beginnings more than half a century ago and has been published by *Milling & Baking News* since 1973. The second is a Buyer's Guide of milling equipment and services, first published as a separate directory by *Milling & Baking News* in 1978.

The Milling Directory provides a comprehensive listing of companies and products in the milling industry, including daily flour milling and storage capacity, railroad service, executives in management and production, and wholesale and retail brands.

The statistical summaries beginning on Page 6 detail milling capacity by largest companies, by states and by type of flour.

The Buyer's Guide includes a complete listing of products and services for milling and an alphabetical list of companies producing and/or supplying these products to milling. Suggestions on how to use the Buyer's Guide appear on Page 87. The publisher assumes information provided by the companies included in the Buyer's Guide section to be an accurate list of the products and services offered by that company.

TABLE OF CONTENTS

MILLING DIRECTORY

UNITED STATES:
- Statistical summaries 6
- Multiple unit companies 12
- Wheat flour mills 22
- Family flour packaging plants 35

- Manufacturers/Suppliers 116

Index to Advertisers 134

This Milling Directory/Buyer's Guide is unique in that each and every listing is verified by the companies listed for accuracy. Every effort has been made to present a publication free of errors and/or omissions. In the event that errors or omissions occur, the editors of *Milling & Baking News* would greatly appreciate communications to that effect so that corrections will be made in future editions.

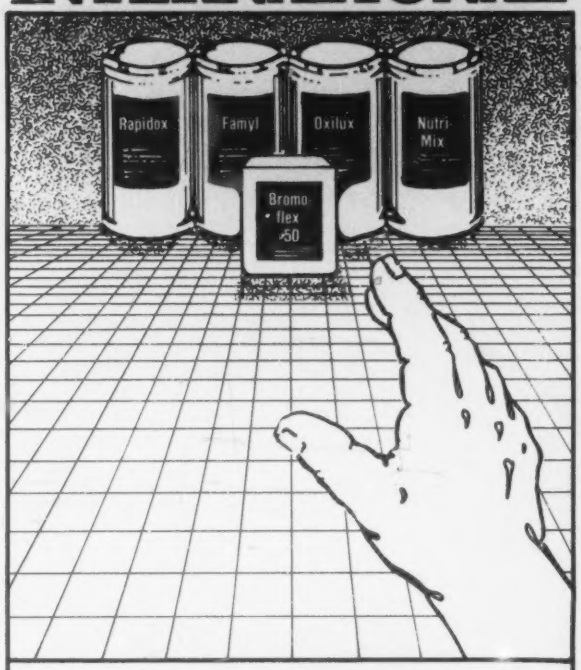
EQUICHEM
INTERNATIONAL



REACH FOR GOOD QUALITY ...

Bakers demand uniform high quality flour. With the right EQUICHEM Flour Treatment Products, flour problems due to wheat crop variances can be corrected.

EQUICHEM Flour Improvers and Vitamin Premixes can assist millers to attain the optimum quality flour the industry demands.

Our staff are always ready to help millers and bakers reach their flour quality goals. EQUICHEM offers personalized service and excellent quality products:

- **Bromoflex 50** — Potassium bromate 50%
- **Rapidox** — Maturing agent
- **Famyl** — Fungal alpha amylase
- **Oxilux** — Bleaching agent
- **Nutri-Mix** — Vitamin premixes

Here's something you didn't expect to import: non-European automation.

Comptrol is a Canadian company dedicated to providing integrated control and management systems to the North American milling industry. Through our expertise and products we help mills capture the benefits of automation that result in increased profit.

Whether your needs are:
- improving yield,
- more consistent flour quality,
- reduced downtime,
- precise production controls and reporting,
- or one button start with interlocks,

Comptrol has a solution for your mill.

Our Mill Control and Management System, designed specifically for flour milling, is modular, semi-custom, and open.

Modular because you can get only the features you need today but retain the ability to add more as your needs change.

Semi-custom because the system must meet your specific needs not someone else's.

Open because it can integrate to mill equipment and sensors from numerous suppliers, whether you have electronic or mechanical scales, PLC or relay controlled equipment, on/off or variable speed feeders, whatever your level of automation.

Why not talk to us about your mill? Call Len Vienneau at (416) 238-5957. Or write 5650 Tomken Rd., Unit 10, Mississauga, Ontario, Canada, L4W 4P1.

COMPTROL
Computer Control Inc.

Technology that's been put through the mill.

since 1882
SIEMER
MILLING COMPANY

WHAT IT TAKES TO GET IT RIGHT

Responsiveness, flexibility, attention to details, a desire to please—these are qualities that distinguish the star performer from the merely competent.

We produce soft wheat flour—for cakes, cookies, crackers, pretzels, batter and breading.

Our products, including New Century Hi Ratio Cake Flour and Gold Standard Cookie and Pastry Flour, adhere to a standard of quality that should be every miller's goal.

Our ability to deal quickly and congenially with your most demanding service requirements will make you doubly glad you're doing business with us.

When consistent product and reliable service are important to you, think of us. We know what it takes to keep our customers satisfied...and customers satisfaction is why we're in business.

Who's on first, what's the game?
What's the score, who's playing?
Where's the field, starting when?
Why play at all, who has the ball?

What rules apply, is language written?
Recruiting allowed, trading fair?
Who to coach, who to lead?
Seek we heroes or team players?

Are rules changing, who writes them?
The field level, whose advantage?
Skill or strength, quickness or size?
How to plan, what strategy?

Pull together, play much smarter.
Force the issues; make luck a partner.
Manufacture versus mentafacture.
Need more skills, enroll computer.

Throw out anachronistic misoneism.
Consider oneirocritical missions.
Think strategic alliances antilogical
Or archetypal win-win formulas.

HUMPHREY
Employees' Belt Manlift

Production goes up when a Humphrey employees' belt manlift goes in. You save man-hours by eliminating stair-climbing time and fatigue. A Humphrey manlift provides simultaneous up and down transportation, eliminates waiting and delays. It costs less to install and maintain than conventional elevators and takes only a fraction of the space.

Important SAFETY FEATURES of the **HUMPHREY** Employees' Belt Manlift

1. **In-track safety stops.** They break the electrical circuit, applying the magnetic disc brake to stop the manlift, if a rider fails to dismount at the top landing. Also furnished at bottom of manlift when a pit is required.

2. **Overhead safety stop** at the top of the manlift breaks the electrical circuit, applying the magnetic disc brake to stop the manlift, when tubular bar is dislodged by a rider.

3. **Foot treadle safety stop.** Available for mounting at bottom of manlift. It breaks the electrical circuit, applying the magnetic disc brake to stop the manlift, when rider steps on treadle board.

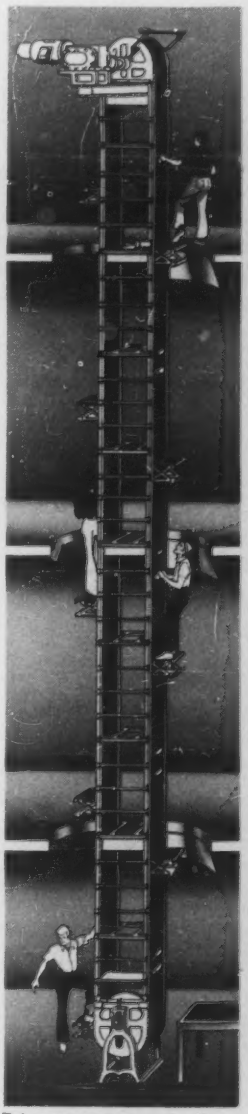
4. **Fixed or moveable safety cones** for mounting beneath floor openings on the up-travel side. The moveable type is equipped with a switch that breaks the electrical circuit, applying the magnetic disc brake to stop the manlift, if cone is bumped by a rider.

5. **Start-stop control rope** is always available to riders on both the up and down sides of the belt. Manlift can be stopped by rider at any point by pulling the control rope in the direction of travel.

6. **All Humphrey manlift belting** is tested and certified for manlift service.

7. **Magnetic disc brake,** mounted on motor shaft extension, is applied upon loss of power to motor.

8. **Centrifugal force-operated "Saf-T-Stop"™ brake** or **electronically-actuated "Saf-T-Stop"™ brake with safety holdback** are available where required by state or provincial codes. They are always available as extra-cost options.



Drive support, guard rails and gates are not shown for simplicity in depicting the belt manlift.

Send now for free catalog and request a quotation.

HUMPHREY ELEVATOR & TRUCK CO.
700 Morristown Blvd., Faribault, MN 55021
Telephone: (507) 334-6193 • CABLE: HUMELEV
Manufacturer of the original employees' belt manlift, made continuously since 1887. Also maker of baglifts.

OLIVER

You can't always see what's bad.

Can you find the contaminant in this product ...our gravity separator can.

The Oliver accurately separates dry, bulk solids by weight. Our unique rectangular deck and multiple fan system provide you with the tools to make the difficult density separations, like the one above. When your product's quality is at stake, you can't always trust the eye. So before you make any final decisions, find out how an Oliver can benefit you.

Call for a FREE evaluation. (719) 254-7814

Oliver

Oliver Manufacturing Co., Inc., P.O. Box 512, Rocky Ford, Colorado 81067, USA

Choose your grain analyzer from the first family in grain analysis.

The DICKEY-john Motomco® 919® Automatic gives you inspector-accurate performance in an easy-to-use design. The 919 Automatic delivers a digital readout of grain moisture content in less than 30 seconds. Without manual temperature testing or conversion charts.

The DICKEY-john GAC II® is a fully automatic instrument that determines moisture content, grain temperature, and approximate weight per bushel—all three in less than 20 seconds.

The DICKEY-john GAC III® is a near infrared analyzer that provides a quick accurate measurement of the percentage of moisture, protein and other constituents in a variety of grains. The GAC III is available in a range of models to fit your specific needs and budget. Call or write today for information.

Why did all these major milling companies pick Evergreen for building and restoration?
PILLSBURY
CARGILL
BAY STATE
JAMAICA FLOUR MILLS
INTERNATIONAL MULTIFOODS
MILLER
ADM
Because of Quality, Service and Price!
The majority of all major flour mill building projects are done by Evergreen Builders Inc.
And, for good reason.
The quality of their work is unquestionable, from start to finish. The service is second-to-none, designed to meet your individual project needs efficiently and on-schedule. And from the beginning, you'll find that the price is very competitive, with a variety of compensation plans to meet your needs.
If there is a building project in your company's future, Quality, Service and Price are three good reasons to give Evergreen Builders a call today.

ROYAL TREATMENT.

One of the most modern grain terminals in the United States, the Corpus Christi Public Elevator has a 5-million bushel capacity on a 45-foot channel. High-capacity railcar and truck unloading and loading is augmented by computerized documentation of customer inventories, by weight, of each grain and grade.

Add our high-speed bagging facilities and our efficient and economical services, such as special palletizing and the availability of total FAS packages, and you'll believe in our commitment to treat shippers and receivers like royalty!

The Port of Corpus Christi . . . in a class by itself!

PORT OF CORPUS CHRISTI

WHERE FOREIGN TRADE ISN'T FOREIGN.

a leader in innovative bulk loading system design

DCL's advanced bulk loading systems are at work throughout the world, solving some of industry's most difficult problems — eliminating dust hazards and increasing loading speeds.

Our exclusive Rhino Hyde® urethane inner stacking cones plus innovative design features make our spout the best alternative.

Our success with repeat customers is the result of DCL designed systems that carefully consider every aspect of loading terminal operation.

For more detailed information, call or write Reinhard Matye, DCL, P.O. Box 125, Charlevoix, Michigan 49720, (616) 547-5600. Fax: 616-547-5832
